ISSUE	FREEZER NOT FREEZING AT ALL.... SHELLI CELL: 971-281-1212 PLEASE TRY THIS ONE FIRST AS THE STORE EMPLOYEES ENGLISH IS NOT PRIMARY LANGUAGE... CLEANED FILTER LATE LAST WEEK, AND THAT HELPED IT DROP FROM 48 TO 33 DEGREES, BUT WILL NOT GO ANY LOWER... REQUESTING TECH COMPANY JOE ROTH HEATING AND AIR @: 503-901-7191.... IF UNABLE TO LOCATE A TECH THAT CAN COME OUT ASAP...
PRE-DIAGNOSIS	7/3/18 SWC and the fan and snowflake icons are on, all other listed info is correct. - Amanda Dispatch tech to check unit,

If parts have been sent prior to your company's diagnosis please keep in mind that we still expect your technician to do a thorough diagnosis and decide what parts are needed, if any, to repair the unit. The parts we sent are ones we think your technician may need after his/her diagnosis.

Please contact The Dispatcher if the service call is expected/begins to exceed \$300.

I have notified the customer of the Atosa Warranty Terms. If the issue is anything maintenance related (dirty filter, insufficient airflow, improper voltage, etc.), please bill the customer directly. Atosa is not responsible for maintenance related issues.

For Tech Support, Please Contact: (800) 683-8660 ext 101

To Order Parts related to this Service call, Please contact the dispatcher who sent this service call.
